## OUTSIDE YELLOW JACK

Several Cases Have Been Reported In Outside Parishes.

## DOZEN DIED MONDAY

Situation at Patterson Is Reported as Encouraging and the Residents of That Place Are Thoroughly Alert.

New Orleans, Aug. 15.—Following is the official yellow fever report up to 6 o'clock Monday afternoon: New cases, 55; total, 1038; deaths, 12; total, 166; new sub-foci, 8; total, 210; cases under treatment, 356.

The figures for Monday are considered surprisingly small, considering that nineteen of the cases reported really belonged in Sunday's list, having come in after the closing of Sunday's report. Monday has usually been a heavy day for new cases on account of hold-overs from Sunday, and if the number of new cases for the next few days continue small, then it can be said that the situation is really improving. Of the new foci, four are up town and four below Canal street.

Surgeon White's forces went to work on the re-organized plan, all the fumigating and screening being done from the district headquarters instead of the central headquarters as heretofore.

Assistant Surgeons Mullans and Green reported for duty. Surgeon Sporting of the navy arrived here to look after the interests of the navy men who are at the naval station.

Monday was field day for country cases. Assistant Surgeon Corp went to St. James parish and found a case at Lutcher, a large lumber town. This case is traced to the reserve plantation.

The parish health officer of St. Charles reports that Diamond and Goodhope plantations have each one suspicious and three positive cases. He says that on the Goodhope place the Italians are very much opposed to inspections, but he will call on the sheriff to enforce his authority. Two more cases were discovered on the Woods plantation, in Jefferson parish.

Another case has developed at La Fourche Crossing, which is isolated on a flatboat in the bayou. Patterson re-

ports three new cases and no deaths. Plaquemine parish reports two new cases at Port Celeste, four miles above Pointe a la Hache, one of which is dead. All other cases in that parish have recovered and the Pointe Celeste cases are the only secondary infection which has developed. An early report received by the board of health said that there were twelve cases there, but this was a mistake in transmission.

Surgeon Guiteras returned from Patterson, where he has been in charge of the fumigation and screening and organizing the community to fight the infection. He reports the situation there as encouraging and the people thoroughly alive to the necessity of the work mapped out by him.

The situation in regard to the fruit business shows some signs of a solution.

It is believed that the surgeon general will withdraw his prohibition against shipment of fruit north, if an arrangement now under way can be completed to have fruit vessels un-

loaded at Chalmette, a point below the city.

The Norwegian steamship Sapphire, from Colon, is now held up in quarantine and two cases of sickness were taken off and placed in the detention camp at the quarantine station near the mouth of the river. It is reported here that a case of sickness was taken off another ship recently, which is still detained at quarantine.

Assistant Surgeon Berry is on the road to recovery.

## STORIES DENIED.

Negroes and Whites Not Placed in Same Tents at Joaquin.  
Beaumont, Aug. 15.—Dr. Florence, state quarantin officer stationed at this point, returned from a visit to the detention camp on the Houston East and West Texas railroad at Joaquin. He says the sensational stories sent out from that point to the effect that white people and negroes are confined in the same detention camp there are all fabrications. There are twelve persons in detention at Joaquin. Several of these are drummers. They are all in the health.

There are over 100 persons in the detention camp at Echo, near Orange. A sub-camp has been established there.

## TEXAS ENTIRELY FREE.

Dr. Tabor Asserts That There Is Not Even a Suspicious Case.

Houston, Aug. 15.—State Health Officer Tabor, who has returned from a trip to north Texas, says there is not even a suspicious yellow fever case in Texas. He went to Sabine county to put on guards on the border line at the expense of the state. The other border counties are taking care of their sections.

## To Remove Embargo.

Shreveport, Aug. 15.—An effort to remove the embargo of outside points against this city was inaugurated Monday, when a message was received from the president of the Monroe board of health asking a conference with parish and city health authorities. This was agreed to.

## TERRIBLE COLLISION.

Frightful Accident Happens on the Nickel Plate Road.

## SIGHT IS SICKENING.

Twelve Persons Are Killed, Twenty-five Injured and Several of the Latter, It Is Thought, Cannot Survive.

Cleveland, Aug. 14.—A fast eastbound passenger train on the Nickel Plate road collided with a westbound freight train Sunday at Kishman, O., near Vermillion, resulting in the death of twelve persons, while at least twenty-five others were injured, eight of whom will probably die. The wreck, according to the officials of the company, was caused by a misunderstanding of orders or neglect to obey them on the part of the crew of the freight train.

The forward cars of the freight train were splintered to fragments. Of the passengers in the smoker none escaped injury. Fortunately there was no fire. The injured were hurried to Lorain and placed in the hospital. The dead were conveyed to morgues at Lorain.

When the trains came together almost everybody in the smoker was doing. The sudden jar hurled them out of their seats into the aisle and threw several persons to the roof and sides of the car, which seemed all crushed in like paper bags, pinning down each passenger in the position in which he was caught. The passengers in the second car escaped easily as the violence of the impact was not so severe, although few got off without bruises, sprains or broken bones. The two rear cars were sleepers and they withstood the shock without suffering serious harm. No passengers in the sleepers were injured.

Aside from the injured the men killed on the passenger train were all riding in the smoker at the head of the train and mostly foreign laborers employed by the Standard Oil company on their way to Brookfield, O., in charge of a foreman. Engineer Poole of the passenger train was killed at his post while trying to reach for the air brake after seeing the headlight of the freight train. His fireman, Haefner, saved himself by jumping.

The high speed of the passenger train threw its engine and first three coaches over on the engine of the freight train, telescoping the smoker and the car following.

The engineer and fireman of the freight train saved themselves by jumping as soon as they saw the passenger train coming.

Roy Winch of Findlay who, although severely injured, was the first man to rush into the wrecked smoking car to take part in the work of rescue, gave the following account of the terrible sight within: "The living, the wounded and the dead were piled in one indiscriminate mass all over the floor of the car; the living entangled with the arms and legs of the dead, and many of them pinned down by the dead bodies of the Italians."

"Some of the dead were so badly smashed that through their mouths protruded hideous masses of intestines.

"Two men, Italians, I saw pinned down, one on top being caught in some way about the chest so that he could not get away. The man underneath him was also held down mainly by the weight of the man on top who, in his frantic efforts to get away, kicked the man under him literally to death.

"Terrified by the deaths of their companions, the hiss of escaping steam and the fear of death in the darkness, the Italians fought with one another and stampeded over the living and dead in their efforts to get out of the car. Several were almost as badly injured by fighting each other as by the wreck.

"The engineer of the passenger train was nipped between the engine and tender and when we found him he was hanging head down by the shreds of one leg over the side of the engine. Two men held him in an upright position for over half an hour before we were able to release him. He died shortly afterward. He was conscious only a part of the time."

## Fireman and Yardman Dead.

Kinsley, Kan., Aug. 14.—A Santa Fe passenger train crashed into the rear of a freight eight miles east. Fireman Swartz and a yardman named Steele were killed and Engineer Ramsey seriously hurt. The passenger train was carrying Eagles to Denver.

## BARTENDER KILLS WIFE.

"Because She Did Too Much Rubbering" His Flimsy Excuse.

Chicago, Aug. 14.—James E. Daley, a bartender, shot and killed his wife in a saloon at 383 West Van Buren street because she upbraided him for his attentions to other women. He then hurried to a station to prevent a crowd of infuriated neighbors from lynching him. When asked why he killed his wife, Daley replied: "Because she did too much rubbering." When the body was found the eighteen months old child was sleeping in the arms of its dead mother.

## In Starving State.

Madrid, Aug. 15.—The newspapers declare that 100 laborers in Andalusia are without the necessities of life. Several districts are at the mercy of the rioters and that many landlords are seeking safety in flight.

## THE MORNING EAGLE

Entered at the Postoffice as second class mail matter.

BY CONNELLY & CARNES.

Per Week, 15c - Per Month, 40c

WEDNESDAY, AUGUST 16.

The northern gateways of Texas are being locked up with a very rigid quarantine.

Echo detention camp got up such a reputation for good feed and quarters that the hoboos began to work it for all it was worth.

Washington county farmers are aroused over the matter of people coming there from other parts and taking away their cotton pickers.

A state bank was opened in Brenham yesterday, with H. K. Harrison president. Mrs. Mabel Castles of Bryan is one of the directors.

A colored industrial school will be opened at Brenham, and Booker T. Washington will be asked to come down there and help start it off in good shape. The Brenham commercial club are assisting in the work.

### SCHOOL LANDS ON THE MARKET.

The Eagle is in receipt of the second list of the Texas school lands on the market after Sept. 1, to Jan. 1, 1906, from the general land office. These lists are given free by the land office to all applicants, and there is no necessity for buying them from those who advertise to sell them. Commissioner Terrell says that those who advertise to sell information about the public school land have never had and do not now have any connection whatever with the land office.

The following counties are embraced in the list of lands advertised in the list before us: Armstrong, Brewster, Crane, Crockett, Coke, Duval, Edwards, El Paso, Gaines, Jeff Davis, Kimble, Lynn,

### THREE DISPOSED OF.

Peace Conference Has Settled Some of the Articles Before It.

Portsmouth, N. H., Aug. 15.—Peace conference has discussed and disposed of articles 1, 2 and 3. M. Witte authorized the statement that the question of a loan or other money matters would not be discussed by the conference. Status of Korea was fully discussed.

Article 1, as agreed to by the plenipotentiaries, was not in the language submitted by the Japanese. It had been modified to nearer meet the wishes of the Russian plenipotentiaries, but to what extent could not be definitely stated. Mr. Witte had insisted that Japan's purpose was to make a dependency of Korea and he wanted the language of the article to conform to Japan's real intentions. Mr. Witte was prepared, from the beginning to accept the article, his only objection being as to the form. He wanted the language at least to show that Japan intended to establish a protectorate over Korea.

Articles disposed of are:

1. Russia's recognition of Japan's "preponderating influence" and special position in Korea, which Russia henceforth agrees as outside of her sphere of influence, Japan binding herself to recognize the sovereignty of the reigning family, but with the right to give advice and assistance and to improve the civil administration of Korea.

2. Mutual obligation to evacuate Manchuria, each to surrender all special privileges in that province; mutual obligation to respect the "territorial integrity" of China and to maintain the principle and equal opportunity for the commerce and industry of all nations in that province (open door).

3. The cession to China of the Chinese Eastern railroad from Harbin southward.

### Third Article Not Correct.

Portsmouth, N. H., Aug. 15.—At 1 o'clock Tuesday morning the statement was made to the Associated Press that while the facts sent earlier regarding the article covering the cession of the Chinese Eastern railroad to China are correct, the third article agreed to did not deal with that question.

### WENT TO CHURCH.

Russians Attend in the Morning, Japanese in the Evening.

Portsmouth, N. H., Aug. 14.—Russian envoys and others of the party attended morning services at Christ Episcopal church Sunday. They were escorted to front pews. There was no sermon and the distinguished guests had some difficulty in following the service—that is, rising on time to the responses. In the Orthodox Russian church there are no pews, the congregation remaining standing throughout the service.

Rev. Charles Le V. Brine, rector, was the officiating clergyman. "Friends, we bid you welcome," were his only deviation from the prescribed service.

When the plates for the usual Sunday offering were passed each Russian brought forth a bill and the one hundred and twelve women and eight gentlemen who, besides the envoys, made up the congregation, were given an impressive illustration of the liberality of the Russians.

M. Witte was a keen observer of every feature of the service. He did not take his eye from the procession of altar boys and choristers in their white robes and red cassocks. His gaze, however, was rather that of reverence than curiosity. When the service had ended the envoys were pleasantly received by the rector and members of his parish. They remained only a short time, however, returning direct to the hotel.

Minister Takahira, the Japanese minister, accompanied by Commander Takanishi, the naval attache of the Japanese legation at Washington, attended the evening service at the Christian church in Kittery, Me.

### OVER SEVENTY RAISED.

Work of Saving Sunken Merchant Steamers Will Soon Proceed.

Victoria, B. C., Aug. 14.—News was received from Port Arthur that over seventy vessels, including the battleships Peresvet, Poltava, Retvizan, Pobieda and Pallada and cruisers Bayan, have been raised, and the work of saving merchant steamers sunk at the harbor mouth for blocking purposes has been let to Japanese firms.

### Oldest White Settler.

Lawton, Aug. 15.—The oldest white settler living in Oklahoma is Mickey Heishem, the corral boss at Fort Sill, who has been at the post since 1852, and was the first white man that ever drove a mule team into this portion of the country.

### BEATEN AND KICKED.

Young Men Resented a Raid Made Upon Their Gambling Club.

New York, Aug. 15.—Seat upon and beaten and kicked nearly to death by a crowd of young men who resented his having led a raid on their gambling club a few hours previously, Patrolman Vance C. Lavender of Brooklyn was carried to a hospital in a dying condition. After the assault, when Lavender's comrades were sent out to round up the gang who had attacked him, they had the fight of their lives at the home of Michael J. Lynch, who is said to have been one of the ring-leaders in the attack upon Lavender. In the melee Mrs. Mary Lynch, the mother of the man, put up such a fight that it was necessary for the police to use their night-sticks on her, with the result that with an arm broken she is lying in the same hospital with Lavender.

### Inspectors on Trains.

Memphis, Aug. 15.—Announcement was made by the board of health that marine hospital inspectors will be placed on all through trains in Tennessee. This action was recommended by Surgeon Young, of the marine hospital service.

### CAUSE OF HAY FEVER.

Hyomei the Only Cure—Gives Change of Climate in Your Own Home.

Fifty years ago hay fever had not been named, but undoubtedly people suffered then as now with sneezing, watery eyes, excessive running at the nose.

The direct causes appear to be heat, dust, and the pollen of flowers, and the only treatment that physicians recommended prior to the discovery of Hyomei, was a change of climate.

Now by using Hyomei you can save an expensive trip to the Mountains, and escape weeks of suffering. This remarkable treatment kills the germs of the disease and soothes and heals the irritated mucous membrane. It really gives you in your own home a change of climate, and hay fever sufferers know from past experience that this is the only thing that has afforded them relief.

By breathing Hyomei a few times daily, you can save the expense of a trip to the Mountains and avoid the dangerous hay fever.

The complete Hyomei outfit costs but \$1, extra bottles, 50 cents, and consists of a neat pocket inhaler, through which Hyomei is breathed, and which will last a life-time, a medicine dropper and a bottle of Hyomei. E. J. Jenkins offers to refund the money if Hyomei does not all that is claimed for it.

A large force of men are at work on the new Allen Academy building and are pushing it at a lively rate, with the purpose of getting it ready for occupancy by opening day, Sept. 14th.

John M. Caldwell and son Robert, Emmet Rohde, Sidney Rhodes, M. H. James and R. R. Knowles left yesterday for a hunting and fishing excursion to the Navasota, at McCree's crossing.

M. Bonneville announces the removal of his big Racket store on Sept. 1st, from his present quarters on Main street to his building on Bryan street, formerly occupied by him. He is having the last named building refitted for the purpose, and has put on a removal sale at reduced prices.

Capt. Asa Searcy was in town yesterday from his home in Madison county. Capt. Searcy has recently enjoyed a tour through the western part of the state, visiting relatives at Medina while absent. He finds the west in a very prosperous condition, with good crops and fine business prospects.

Jim Tom Lawrence, accompanied by his mother, Mrs. Josie Lawrence, returned yesterday from the Epworth League encampment at Corpus Christi, suffering from an attack of sickness. Mrs. Lawrence and her son went to the encampment on Monday, the 7th, and were forced to return on account of the young man's illness. He was quite sick for day or two, but is much improved now. Mrs. Lawrence reports the encampment a great success and a very pleasant place to be, but she had to leave much before she expected and wished to, for the reason stated.

J. H. Suber invited a number of friends to a barbecue dinner at the old fish tank south of town Monday, in celebration of the eightieth anniversary of the birth of his father, J. H. Suber Sr. A splendid repast of barbecue kid, pork and beef was served, with salads, cakes, ices, etc. Among those present were Mr. and Mrs. A. G. Board, Mr. and Mrs. Ed Hall, Mr. and Mrs. Webb Howell, Mr. and Mrs. W. C. Boyett, Mr. and Mrs. Jas. Boxley, Mr. and Mrs. T. Goodwin, Mr. and Mrs. Levi Battle, and quite a number of others. All pronounced the affair a very enjoyable one indeed.

The moon was in partial eclipse Monday night. The earth's shadow came upon the moon about 8:40 o'clock and remained for nearly two hours, leaving about 10:30. The shadow extended over about one-fourth of the orb's surface, and consequently did not greatly diminish the light given out by it. The eclipse was viewed by many people throughout the city.

### ARRESTED ON SERIOUS CHARGE.

Dave Washington, Colored, was Brought Here From Millican Yesterday.

Dave Washington, colored, of Millican, was lodged in jail here yesterday charged with aggravated assault. Washington is alleged to have written an indecent letter to a white lady, and a posse went to his house Monday to arrest him. It is said that Washington fired upon the party. They succeeded in arresting him, however, and gave him a beating, then turned him over to Constable Charles Dixon, who brought him to Bryan yesterday and lodged him in jail, charged as stated above. Washington denies sending such a letter, and no name is signed to the note, but there are grounds to believe that he did so. There is but little excitement about the affair, owing to lack of positive evidence, and it is thought that Washington's trial and punishment will be left to the courts.

### ITALIANS WERE WATCHED.

Came Through Bryan on Train and Disembarked at Hearne Yesterday.

Quarantine Officer H. E. Peverly, when he boarded the H. & T. C. train No. 3, at Wellborn, yesterday noon, found six Italians on it, coming, of course, in the direction of Bryan. Mr. Peverly asked the conductor where they were from and where they were bound for, and the conductor knew nothing except that they got on his train at Houston, with tickets for Hearne. Mr. Peverly questioned them, and they would tell him nothing except that they were going to "pick a da cotton." He called the attention of the marshal at Hearne to their presence, but does not know where they went or what became of them. It is supposed that they are bound for some point in the Brazos bottom to pick cotton, as they said, but being Italians and coming from the direction they did, made their case a little interesting to the quarantine officer. The party consisted of a man, his wife and four children.

**STATE FAIR OF TEXAS DALLAS, TEXAS**

SEPTEMBER 30--OCTOBER 15, 1905

ANNOUNCEMENT.

The present organization, known as the State Fair of Texas, stands today without a parallel in the history of Fairs. It is owned and managed by some fifteen hundred of the most prominent citizens of Dallas, who have donated the money to build a fire-proof auditorium and exposition building on the Fair Grounds, costing \$100,000 and in addition to this have advanced the princely sum of \$90,000 for premiums, purses and attractions that the Fair of 1905 may go down into history as the largest and grandest event of its kind ever given in the Southwest.

Every stockholder of this institution has signed an agreement to donate his stock for the good of the cause, and under a contract with the City of Dallas, it is agreed that no officer nor director, other than the Secretary, shall receive any compensation for his services and that every dollar earned by this Fair during the next twenty years shall be expended in the effort to make each succeeding Fair better than the last.

The gates of the Twentieth Annual Fair will open at 10 a.m., Sept. 30, 1905, the Fair continuing sixteen days.

During this period the public is assured of sixteen days' solid pleasure and recreation, as well as the opportunity of seeing the largest and best display of live stock ever collected together in the South.

The lovers of speed horses are assured thirteen days racing with high-grade horses, competing for purses aggregating \$30,000, and last, but not least, the homesick will have an opportunity to examine a complete display of the varied resources and industries of Texas, as well as those of her sister states.

For further information and details address the State Fair of Texas, Dallas, Texas.

Yours respectfully,

**STATE FAIR OF TEXAS**

**Indigestion Causes Catarrh of the Stomach.**

For many years it has been supposed that Catarrh of the Stomach caused Indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of Indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

**Kodol Dyspepsia Cure**

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, Indigestion, dyspepsia and all stomach troubles.

SIX FILED CHARTERS.

**Union Bank and Trust Company of Houston Was the First.**

Austin, Aug. 14.—The rush to file state bank charters in the state department, which under the law was effective Monday, was not as great as was expected. There were only six state bank charters filed up to 1 o'clock. They were: The Union Bank and Trust company, Houston, capital stock \$500,000; Washington County State Bank, Brenham, capital stock \$50,000; Bank of Somerville, Somerville, Burleson county, capital stock, company of Houston, capital stock, \$100,000; West Texas Bank and Trust company, San Antonio, capital stock, \$200,000; American Bank and Trust company, San Antonio, capital stock, \$100,000. The distinction of filing "first" state bank charter fell to the Union Bank and Trust company, Houston.

The governor received two letters from the state department at Washington advising him that two German warships, the "Stosch" and "Bremen," will visit the port of Galveston—first named on Dec. 22, and the other Oct. 13. The governor is invited to pay proper respects to the foreign warships.

GOULD DIES QUICKLY.

**Noted East Texas Attorney Was on His Way to a Depot.**

Palestine, Tex., Aug. 14.—Judge George Henry Gould, a member of the law firm of Gould & Morris, and a leading attorney of the state, died Monday morning at the residence of Dr. W. G. Jameson. Judge Gould, his wife and daughter were on their way to the depot to take a train for Colorado. When near Dr. Jameson's home he was stricken with intense pain. He was carried in the house and Drs. Jameson, Colley and McLeod summoned, but after relieving him somewhat he slowly passed away. Death was due to neuralgia of the heart, caused from over-exertion. He leaves a wife and three daughters. Judge Gould had been the legal representative of the International and Great Northern railroad for eighteen years. He was a Confederate veteran.

\* PORTION OF VEST.

**It Leads to Man's Arrest on a Decidedly Serious Charge.**

Sherman, Aug. 14.—J. T. Mayfield was arrested at his home near Madill, I. T., and is now in jail here charged with an attempted assault upon a twelve-year-old girl at the Old Settlers' park Friday night.

This arrest is a clever piece of work on the part of the officers, as the trail looked dim at first. However, it is stated that the ownership of the hat and strip of cloth out of the back of a vest which were lost in going through a wire fence in fleeing from a man who was attracted by the girl's screams, were the clues worked on. The officers say the strip matched and fit a rent in the vest worn by Mayfield when arrested.

More Canines Than Sheep.

Paris, Tex., Aug. 14.—The assessed valuation of Lamar county for 1905, from the rolls just completed, show an increase of \$552,309 over last year, the total being \$12,899,704. The poll taxes, state and county, total \$16,880.50. One of the items on the ad valorem roll is \$17,980 for dogs, while those for sheep and goats are only \$285 and \$395, respectively.

Judge Wood Badly Hurt.

Denison, Aug. 14.—Judge Wood, law partner of Congressman Randall, was thrown from a buggy in the country and seriously injured.

REMARKABLE MIRACLE.

**Civil War Veteran Declares Another Foot Has Grown on Stub.**

Lawton, Aug. 14.—A remarkable miracle is reported. Captain H. M. Jinks of Rhode Island, a veteran of the Civil war, who sustained the loss of a foot from a cannon shot at the battle of Gettysburg, recently discovered that another foot was growing upon the stub of his lower limb. It began with an itching sensation which increased in severity until the entire end of the limb was covered with the slight protrusions of the growing foot. The itching soon ceased after this and the foot grew rapidly until it was complete, rounded and well filled. Captain Jinks lives at Lone Wolf, Okla., and believes that the territory is the land of miraculous curative and healing properties.

Stopped by Death.

Oklahoma City, Aug. 14.—A case of unusual sadness was the death of Joseph Hutchinson, a traveling man, who died in the hospital here. His home is in Vincennes, Ind., and he was to have been married shortly to Miss Joseph Nelson of that city, where they had been almost lifelong sweethearts. Miss Nelson was visiting in Colorado and when notified of the death of her sweetheart she came at once to Oklahoma City and took charge of the remains, taking them to Vincennes.

PULLMAN INJURED.

Thrown From Buggy and Hurt So Seriously That He May Die.

San Mateo, Cal., Aug. 14.—Walter Sanger Pullman, son of the late George M. Pullman, has been thrown from a buggy while driving in San Mateo and sustained injuries from which he may die. There is a severe injury to the jaw and another on the upper part of his head, but his physicians have not yet been able to determine whether he is suffering from concussion of the brain or had his skull fractured.

Chicago Strike Endorsed.

Philadelphia, Aug. 14.—International Brotherhood of Teamsters' convention endorsed the Chicago strike.

WASHINGTON DINED.

**Alabama Negro's Appearance at the Table Caused Decided Sensation.**

Saratoga, N. Y., Aug. 14.—Booker T. Washington's appearance at dinner Sunday in the grand dining room of the United States Hotel caused a decided sensation among the diners. Washington was the guest of John Wanamaker, former postmaster general, and acted as escort for Mrs. Barclay Warburton, Mr. Wanamaker's daughter, while Mr. Wanamaker walked to the table with J. R. E. Roberts, Washington preached here three times, first in the Presbyterian church, then in the Baptist church, and late in the evening in the African Methodist church.

CONDENMED BY CUNNINGHAM.

**Says Washington's Action Proves Him an Unwise Race Ruler.**

Birmingham, Ala., Aug. 15.—Lieutenant Governor Cunningham, in a statement, condemns the action of Booker T. Washington in dining publicly with John Wanamaker and his daughter at Saratoga Sunday. "His conduct in accepting these attentions from northern white people," said the Lieutenant governor, "proves conclusively that he is an unwise leader for his race. It impairs his usefulness to his people, for while he may be immune from the injury that will follow, some will suffer incalculably."

Blames Booker.

Birmingham, Ala., Aug. 15.—Dr. J. W. Stagg, pastor of the First Presbyterian church in this city, said the action of Booker T. Washington in Saratoga Sunday would retard the union of the Northern and Southern branches of the churches for many years. John Wanamaker, with whom Washington dined publicly, is a prominent member of the Northern Presbyterian church and all southern members of the church will resent his action. I blame Washington more than Mr. Wanamaker. He knows better, while Mr. Wanamaker does not understand the sentiment in the south on anything bordering on race equality."

BULLET IN ABDOMEN.

**Young Man Twice Shot and Quarantine Officer Arrested.**

Texarkana, Aug. 14.—A young man by the name of Walter Wright was shot twice and perhaps fatally wounded at the McShane crossing of the Cotton Belt road just outside the city limits (south) at 2 o'clock Sunday morning. One of the bullets pierced the left arm between the elbow and shoulder, inflicting only a flesh wound, while the other entered the abdomen. The wounded man was taken to a local sanitarium where it was found necessary to perform an operation for laparotomy, the intestines being pierced in four places. Quarantine Officer Ferguson was arrested. He claims that Wright and several companions were resisting the authority of the quarantine officer and that one of them was using a club on him, beating him over the head, and that he fired solely in self-defense.

BY CARLOADS.

**Hundreds of Mexicans Are Arriving in Southwest Texas.**

San Antonio, Aug. 15.—According to United States Immigration Inspector Callahan, carload after carload of Mexicans are coming into this country to hire out as cotton pickers. At Eagle Pass alone more than a dozen cars of Mexican laborers were admitted, ostensibly to visit relatives and friends here, but really to help gather the enormous cotton crop which has been raised in southwest Texas this year.

"It is hard to stop these people from coming," said Inspector Callahan. "They pretend that they are coming for pleasure, when we have every reason to know that they mean business. Under the circumstances we cannot prevent their coming, for we are unable to prove that they are under contract to work before their arrival here." Mrs. Davidson Wins.

Liberty, Tex., Aug. 15.—In district court the case of Laura J. Davidson vs. Shaffer was tried and resulted in a verdict for the plaintiff. It involves two-thirds of a league of land in Liberty county. Attorney General Davidson is the husband of the plaintiff, and he attended court and assisted in the suit.

VOLCANO IN NEVADA.

**Is at Rye Patch and Is Throwing Out Molten Lava.**

San Francisco, Aug. 15.—A special dispatch to the Chronicle from Reno, Nevada, says: "A volcano throwing off molten lava and in active operation has been discovered in Nevada by Messrs. McClure, Wheeler and Somers, cattlemen of Lovelock. The volcano is located at Rye Patch, Humboldt county. Although that section has been traversed for years, the crater has just been found. The men were in search of cattle when they came upon the stream of lava, and tracing it to its source located the volcano. Rocks for some distance around were so hot they could not touch them with their bare hands. Distinct rumblings accompanied the flow of lava."

Exchanged Salutes.

Portsmouth, Eng., Aug. 15.—French fleet sailed for Brest amidst great demonstrations of good will. Farewell salutes were exchanged between Vice Admiral Calladaird's flagship, the Malzezene and Lord Nelson's old flagship, the Victoria.

Want Public Meetings.

Hongkong, Aug. 15.—Chinese residents of this city are applying to the government for permission to hold public meetings for the purpose of discussing the boycott on American goods.

New Internal Loan.

St. Petersburg, Aug. 15.—The new internal loan of \$100,000,000 will be issued Aug. 17. The price will be 96½.

OLD TIME SERVANTS.

**Peppys Had Troubles of His Own With His Menials.**

Perhaps one reason why servants in Pepys' time were treated as "one of the family" was that they very often were blood relations. The diarist himself, in fact, engaged his own sister Pauline as his servant, "which she promised me she could, and with many thanks did weep for joy." For all that, he would not "let her sit down at the table with me, which I do at first that she may not expect it hereafter from me." Her temper, however, made the arrangement impossible, and Pepys had to engage somebody else instead, "it being a great trouble to me that I should have a sister of so ill a nature that I must be forced to spend money upon a stranger when it might be better upon her if she were good for anything."

It is only within a century or so that servants have ceased to be relations of the family and the term "menial" has come to be considered derogatory instead of meaning simply "within walls"—intra moenia. In the old days all women between twelve and forty and all men between twelve and sixty without means of subsistence could be forced by two justices to go into domestic service; hence the fact that when a man married his cook, as often did, he was extremely likely to marry some one above him in station, as we understand distinctions of class nowadays. This also explains why a lady would refer to her maid as her "gentlewoman" and a master to his valet as his "gentleman."

INLAND BATHING.

**It Furnishes One of the Sensuous Delights of Existence.**

Quiet inland bathing offers you no extravagant opportunities to be a poseur. If the water is warm, you loll in it at your ease; your mind is soon stupefied by the sensuousness in which you are infolded; the interest of your sleepy eyes does not extend beyond the gentle ripples that widen away from the slow, submerged strokes of your arms. After awhile you roll over on your back and drowsily execute at intervals a languid "shoe fly" leg motion, while you look drowsily up into the void. Now and then you will raise your arms and flap them down through the water like a pair of sweeps. It is only a tired sort of effort, and finally, in the supreme abandonment of indolence, you lay your head back—far back—until the water creeps up about your eyelids. You stretch out legs and arms motionless and lie, breathing tranquilly, sensible of no other movement in the world than the slight flux and slip of the water upon your heaving chest. Then may you realize perhaps something of the lark's sensation when, with wings outspread, it hangs suspended between earth and sky. He who has never thus suspended himself idly in still water, with fathoms below him and infinity above, has not experienced one of the sensuous delights of existence. Unfortunate man who goes to his grave believing that there is nothing better than bed for weary limbs and jaded brain!—Arthur Stanwood Pier in Atlantic.

Back to English Fairs.

For the origin of the modern circus one must go back to the English fairs of the seventeenth, eighteenth and early nineteenth centuries. Unlike the American county fairs of the present day, which are more in the nature of live stock exhibitions, the early English fair was a rout of dancing, fiddling, drinking, fighting, wrestling and bull baiting—a gathering, as it were, of merry andrews, monstrosities, bullies, jilt, tight rope walkers, acrobats, contortionists, equestrians, mountebanks, grimaces, scaramouches, thieves, pickpockets, idlers, beggars, fortune tellers, gypsies and those upon whom they prey.—E. S. Hallock in Century.

The Orange Tree.

The orange tree flowers during nearly the whole of the summer. The fruit takes two years to arrive at maturity, so that for several months in the year a healthy tree appears every stage, from the flower bud to the ripe fruit. This gives the trees their rich appearance during the principal fruit months, when the emerald tints of the unripe and golden hues of the mature fruit mingle with the dark foliage of the leaves, while the bright blossoms present a charming contrast.

Guilds and the Garden of Eden. The Weavers' company claims to be the oldest guild, so far as the date of establishment is concerned. The Gardeners' company, on the other hand, puts in a plea for precedence on the score that our first parents were gardeners. The present master of the Merchant Tailors' company, however, awards the seniority to the Skinners' company. Adam and Eve were "skinners" before they troubled their heads about horticulture.—London Press.

Keeping His Bargain.

"Your new seller's all right," said Tommy Twaddles to his big sister at the breakfast table.

"I'm glad you think so," said Phyllis, with a blush and a glance at her ma.

"You bet he is," continued Tommy. "He's a real sport. Why, he gimme a quarter not to tell what I saw in the parlor last night—an' you bet I won't tell, neither!"—Philadelphia Press.

TIT FOR TAT.

British tourist—I say, what makes you Americans talk with your noses? American—I say, what makes you Britishers talk with your don't-you-knows?—London Express.
